Mathematicians and Scientists

Math

We are currently learning about measurement. We are learning about measuring elapsed time, measuring to the quarter inch, measuring weight with grams and kilogram, and measuring liquid with liters and milliliters. In addition to this we are continuing to practice and work on all skills as we prepare for our End of the Year testing. A timed drill will be given at the end of each week. Please make sure your child is practicing their multiplication and division.

Science

The fourth nine weeks focus will be the following:

Understanding The Plant Life cycle

Understanding the functions of the parts of a plant

Understanding the needs of plants

Readers and Community Experts

Reading

We are continuing to focus on poetry. We are also continuing to review all essential reading skills and language skills as we begin preparing for our End of The Year testing. Please make sure that you are reading with your child at least 20-30 minutes each night.

Social Studies

This quarter we will be wrapping the year up with our economic unit. The students will be learning about economic resources, producers, consumer, needs vs wants, and how our economy function within our nation as well as with other nations.

Weekly Homework Help - *ALL HOMEWORK THIS WEEK IS DUE ON FRIDAY

Math: Completed *Daily Spiral Math Review* and *Math Log (On The Back)*

ELA: *Daily Comprehension* *Students are to be using the strategies on their homework that we are being modeled and used in class. This means that they should be underlining in the text to support their answers, and they should be using RUCAS on their math word problems. This is an expectation that has been told to them in class as well.
