Mathematician and Scientist News

Math We are working on counting money and we will begin telling time (to the nearest 5 minutes).

Science This nine weeks we are learning about states of matter. We will be learning the difference between solids, liquids, and gases.

Homework Help

Students will still be required to read 20 minutes a night and log their book. It would also be helpful to practice written questions that go along with the books they are reading. They will also need to practice their addition/subtraction facts nightly.

*Students are given 2 minutes to complete **twenty** one-digit addition and subtraction problems. Practicing nightly will help with their fluency in completing these assessments.

Reader and Community Expert News

Reading This four weeks we are learning about rhyming, alliteration and repetition. We will also write an opinion piece about the best occupation.

Social Studies- Geography and Environmental Literacy: We will be learning how people affect the environment in both positive and negative ways. We will learn how to read maps and the differences between urban, suburban, and rural communities.

Specials Schedule

Monday- Music

Tuesday- P.E.

Wednesday- Spanish

Thursday- Title I

Friday - Art

****Wear sneakers on your PE day!!!**

Reminders

- The penny war has begun and will run through March. Children can bring in any form of money. If our class raises \$100 we will have an ice cream party. The class that raises the most money will also have a pizza party!
- The book fair will be here on April 3rd – 7th.
- Yearbooks and student ads are on sale.
