Day 1: Shapes/	Identifying shapes: Draw the following shapes.								
Time	Triangle	Square	Cube						
		•							
	Name that shape.								
	I have 2 long sides and 4 short sides.								
	I have 4 vertices What shape am I?								
	what snape am 1?								
Day 2: Place Value	Using tens and ones. Show the number 18. Using tens and ones. Show the number 94.								
	10 more than 28								
	10 less than 28								
	10 more than 89 10 less than 89 Finish counting 121, 122,,,,,								
		,,	,						
	Finish counting 63, 6	.4,,,							
Day 3: Operations and	15 - 9 =	10 + 5 =							
	10 . 0	0 0							
Algebraic Operatio	12 + 3 =	2 - 0 =							
ns	+ 3= 11	18= 10	4 + = 16						

Day 4: Word Problems	William has 12 balloons. He gives some balloons to Gabriel. Now William has 4 balloons. How many balloons did William give to Gabriel? (answer, picture and problem)				
	Ariel has 7 blue cubes, 3 orange cubes and 5 green cubes. How many cubes does Ariel have in all?				
	Tom has 11 pens. Sam has 4 fewer pens than Tom. How many pens does Sam have?				
D F.					
Day 5: Understa nding Place Value/Gr oups of ten	Grab a handful of items of your choice. (beans, cereal, any item that you can use to sort to make groups of ten. Once you have these items sort them in groups of ten.				
	How many groups of ten do you have?				
	How many do you have left over?				
	How many do you have in all?
